

FOR WELLNESS & CARE

A Safe, Supportive Digital Community for Those Who Need It Most

Bridging the gap in behavioral health care by connecting individuals with ASD and I/DD, their families, and the agencies that support them in one secure, moderated ecosystem.

aSuggestion. Life Improved.

What Is aSuggestion?

aSuggestion for Wellness & Care is an innovative digital health ecosystem designed to support individuals navigating Autism Spectrum Disorder (ASD), Intellectual and Developmental Disabilities (I/DD), and other mental or behavioral health challenges.

Traditional care systems are often strained by workforce shortages and long waitlists. aSuggestion bridges that gap, providing a secure, moderated, and engaging digital environment that blends constructive social engagement with structured learning, expert assistance, and practical resources.

Unlike open social media networks, aSuggestion is built around safety and privacy. It is a predator-free environment that relies on a hybrid moderation model using both smart AI and trusted human moderators, often the users own care providers.

3

Distinct audience segments served

2

Core content pillars powering the platform

1

Safe, unified ecosystem for care and community

"At the heart of aSuggestion is the belief that meaningful change happens when people come together."

WHO WE SERVE

A Multi-Sided Ecosystem

aSuggestion serves three distinct groups, each with their own needs, united in one platform built on empathy, safety, and genuine connection.

PRIMARY USERS

Individuals

People living with ASD, I/DD, and behavioral health challenges who need a niche, judgment-free social media experience. aSuggestion gives them a safe space to connect, share, and grow without fear of stigma or exploitation.

SUPPORT NETWORK

Families and Caregivers

Parents, siblings, and direct support professionals who use the platform to find educational resources, manage caregiver burnout, and learn strategies for personal resilience and relationship success.

B2B PARTNERS

Agencies and Providers

Health agencies, social workers, and care providers who partner with aSuggestion to offer a digital extension of their in-person services, leveraging the platform for remote support, group moderation, and care coordination.

COMPANY PROFILE

A secure, moderated digital ecosystem purpose built for individuals with ASD, I/DD, and behavioral health challenges. aSuggestion delivers social engagement, emotional regulation tools, and proprietary life skills content, all in one **predator free community**.

Moderated Community

Proprietary Video Content

Human Authored Posts

Wellness Rooms

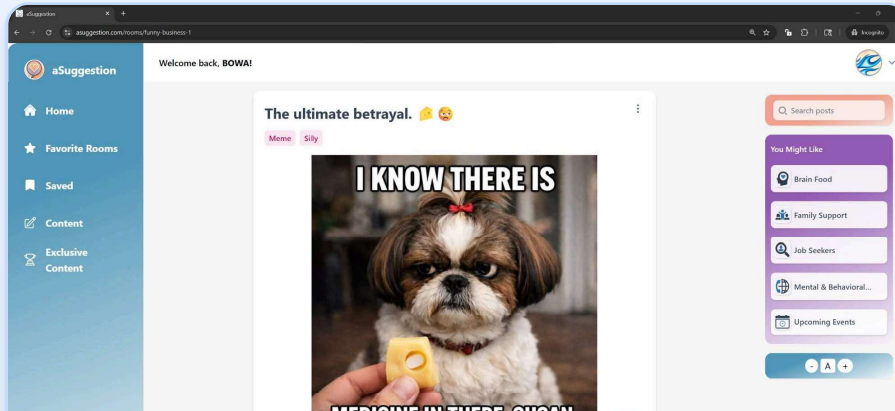

Platform Highlights

70 / 30 Rule

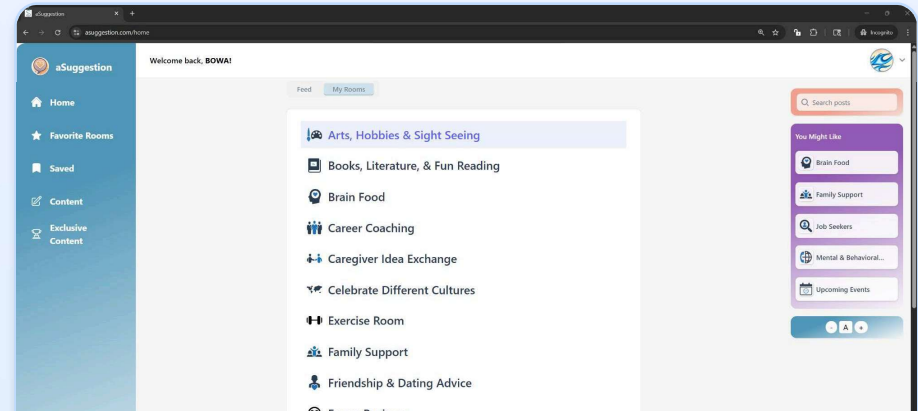

Fun vs. Growth Content Ratio

A carefully moderated balance ensures members stay engaged while consistently building real life skills.

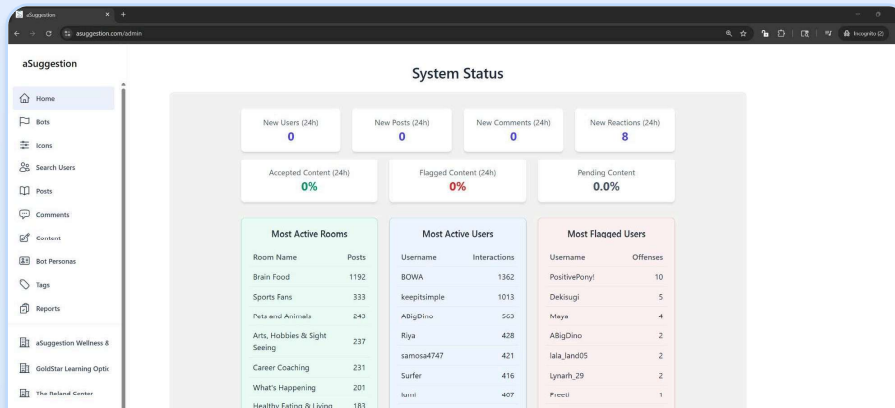

Wellness Rooms

Explore topic specific rooms from Arts and Hobbies to Mental Health — a community for every interest.

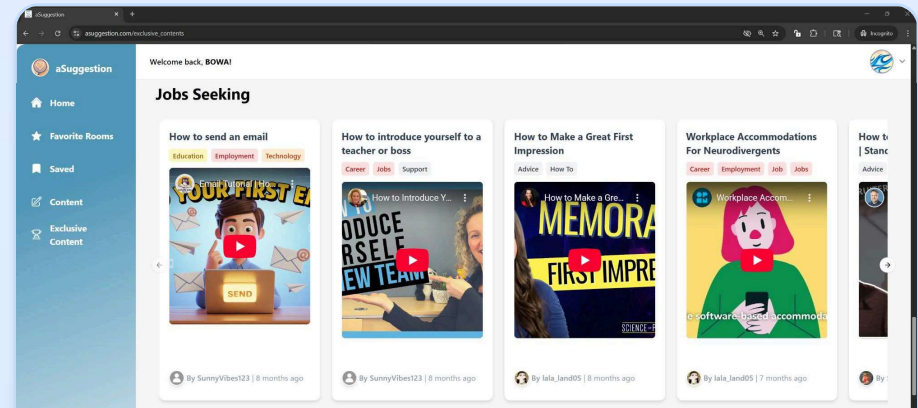

Interactive Feeds

Engage with posts, reactions, and discussions across dozens of safe, moderated community spaces.

Administrative Dashboard

Empowers administrators to identify trends, patterns, and usage preferences across the platform.

Exclusive Skill Building Videos

Curated video playlists for job seeking, friendship skills, mental wellness, and more.

Introducing Check-In Chats

A human-powered video engagement service that pairs empathetic interns with platform members for genuine one-on-one connection, reducing isolation, building trust, and generating meaningful care insights for agency partners.

"You don't need to be a certified clinician to make a difference. You just need to show up, listen, and care. That's what Check-In Chats is built on."

 aSuggestion for Wellness & Care

DESIGNED FOR

Individuals with ASD & I/DD

Agency Partners

Intern Participants

No Clinical Credentials Required

We are not looking for therapists. We are looking for caring human beings with a high capacity for empathy who show up, listen, and genuinely connect.

Live One-on-One Video Sessions

Interns conduct scheduled, face-to-face video calls with platform members — providing a friendly presence, positive engagement, and a real human connection.

Recorded and Transcribed for Care Teams

Every session is recorded and transcribed to generate meaningful activity summaries delivered directly to your agency partners — closing the loop between digital engagement and professional care.

Clear Safety Escalation Protocols

Should any concern arise, interns follow a structured escalation path to immediately connect individuals with qualified professional care teams. Safety is never left to chance.

Supervised and Fully Supported

Interns receive domain expertise, ongoing mentorship, regular video check-ins, and complete access to all tools and resources needed to succeed in every session.

Community Content Partnership

Alongside video calls, interns contribute thoughtful social content and moderate discussion threads — helping foster a warm, welcoming digital home for every member.

Interested in bringing Check-In Chats to your agency?

Ask us about our internship partnership program and how sessions integrate with your existing care documentation workflows.

Two Content Pillars. One Powerful Platform.

aSuggestion is a dynamic content engine producing highly specialized material to support its users across two primary areas.

A

Social Media Style Engagement Content

The platform maintains a continuous feed of user-appropriate social media content tailored to vulnerable populations. Content creators are instructed to write with an authentic, human voice. No AI generated posts.

60 to 70% Fun and Community

Lighthearted, interactive, and fun content to foster community participation and make aSuggestion a place users genuinely want to be.

30 to 40% Growth and Wellness

Meaningful growth content covering personal health, job readiness, relationship skills, and caregiver wellness.

B

Custom Video Content for Residential and Day Programs

aSuggestion is expanding into proprietary video content specifically designed for residential care settings and day programs, providing essential scaffolding to help individuals with ASD and I/DD build independence.

Daily Living and Home Skills

Personal Hygiene

Emotional Regulation

Social Skills

Technology and Safety

Job Readiness

AGENCY EMPOWERMENT

We Solve the Content Gap

We do not just provide hardware or a platform. We craft **on demand, agency specific video and social content** to help your staff teach life skills, hygiene, job readiness, and emotional regulation, without needing a film crew.

- ✓ Custom video content for your agency's mission
- ✓ Staff training modules built into the platform
- ✓ Scalable content that grows with your caseload
- ✓ Measurable engagement and outcomes tracking

Family and Caregiver Supports

Industry News and Upcoming Events

More Than a Platform. An Ecosystem.

a**Suggestion** combines community, content, and care tools into one integrated solution that serves individuals, families, and providers alike.

Safe and Predator-Free

Hybrid AI and human moderation ensures every interaction is safe, respectful, and appropriate, with care providers often serving as trusted moderators.

EHR Connected Reporting

Behavioral trend reports and activity summaries generated within the platform can be tied directly to Electronic Health Records for seamless care coordination.

Thought Leadership Partnerships

Strategic partnerships with organizations like Autism Speaks and AAIDD continuously enrich platform resources through shared revenue collaboration.

Assistive Technology Integration

The platform integrates with assistive technologies used by individuals with ASD and I/DD, ensuring accessibility is built in from the ground up.

Remote Care Extension

Agencies and providers can extend their in-person services digitally, supporting clients between appointments with moderated groups and resources.

Warm, Human Brand Voice

Every piece of content is guided by aSuggestion's core tone: warm, empathetic, accessible, and free from clinical jargon, because connection matters.

Partner With Us

aSuggestion is actively building partnerships with health agencies, care providers, and thought leadership organizations who share our mission. Together, we can expand access to support and transform how behavioral health communities connect.

Agencies and Providers

Extend your services digitally and support clients between appointments.

Advocacy Organizations

Share resources and expertise with a community that needs your voice.

Residential Programs

Access custom video content designed for daily living skill development.
